## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-20 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The specification does not clearly support or detail how the speakers are disposed within or in the window (i.e. adhesives, screws, welds, brackets, etc.). Clarification and correction are required.

### ***Allowable Subject Matter***

Claims 1,14,15 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Claims 2-13,16-20 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

### ***Response to Arguments***

In reference to the applicant's argument that "it is clear from the prior art how the speakers are disposed within or in the window", it is not the requirement of the prior art to find or explicitly define or to detail the applicant's invention. It is the responsibility of

Art Unit: 3635

the applicant to detail and fully disclose his invention and any relevant or pertinent elements thereto.
